Cautionary Statement Regarding Forward Looking Information

关于前瞻性信息的警示性声明

This document has been prepared by Integra Resources Corp. (the “**Integra Resources**” or “**Company**”) solely for the use in the presentation being given in connection with the recipient’s evaluation of the Company which is defined and outlined further herein. This documentation is a presentation of information about the Company’s activities as the date of the presentation and should be read in conjunction with all other disclosure documents of the Company. It is information in a summary form and does not purport to be complete. It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. These should be considered, with or without professional advice, when deciding if an investment is appropriate. The information contained in this presentation is derived from estimates made by the Company, information that has been provided to the Company by other parties and otherwise publicly available information concerning the business and affairs of the Company and does not purport to be all-inclusive or to contain all the information that an investor may desire to have in evaluating whether or not to make an investment in the Company. The information has not been independently verified and is subject to material updating, revision and further amendment. No representation or warranty, express or implied, is made or given by or on behalf of the Company or any of its affiliates or subsidiary undertakings or any of the directors, officers or employees of any such entities as to the accuracy, completeness or fairness of the information or opinions contained in this presentation and no responsibility or liability is accepted by any person for such information or opinions. In furnishing this presentation, the Company does not undertake or agree to any obligation to provide the attendees with access to any additional information or to update this presentation or to correct any inaccuracies in, or omissions from, this presentation that may become apparent. No person has been authorized to give any information or make any representations other than those contained in this presentation and, if given and/or made, such information or representations must not be relied upon as having been so authorized. The information and opinions contained in this presentation are provided as at the date of this presentation. The contents of this presentation are not to be construed as legal, financial or tax advice. Each prospective investor should contact his, her or its own legal adviser, independent financial adviser or tax adviser for legal, financial or tax advice. No securities commission or regulatory authority has reviewed the accuracy or adequacy of the information presented. This presentation is for informational purposes only and does not constitute an offer or a solicitation of an offer to purchase the securities referred to herein.

Certain information set forth in this presentation contains “forward-looking statements” and “forward-looking information” within the meaning of applicable Canadian securities legislation (referred to herein as forward-looking statements). Except for statements of historical fact, certain information contained herein constitutes forward-looking statements which includes, but is not limited to, statements with respect to: the future financial or operating performance of the Company and its mineral projects; results from work performed to date; the estimation of mineral resources; the realization of mineral resource estimates; the development, operational and economic results of the preliminary economic assessment (the “**PEA**”) for the DeLamar and Florida Mountain deposits (the “**DeLamar Project**”), including cash flows, capital expenditures, development costs, extraction rates, life of mine cost estimates; timing of completion of a technical report summarizing the results of the updated PEA; timing of completion of an updated resource estimate; magnitude or quality of mineral deposits; anticipated advancement of the DeLamar Project mine plan; exploration expenditures, costs and timing of the development of new deposits; costs and timing of future exploration; the completion and timing of future development studies, including a pre-feasibility study; requirements for additional capital; the future price of metals; government regulation of mining operations; environmental risks; the timing and possible outcome of pending regulatory matters; the realization of the expected economics of the DeLamar Project; future growth potential of the DeLamar Project; the DeLamar Project as an ideal acquisition target; and future development plans. Forward-looking statements are often identified by the use of words such as “may”, “will”, “could”, “would”, “anticipate”, “believe”, “expect”, “intend”, “potential”, “estimate”, “budget”, “scheduled”, “plans”, “planned”, “forecasts”, “goals” and similar expressions. Forward-looking statements are based on a number of factors and assumptions made by management and considered reasonable at the time such information is provided. Assumptions and factors include: include the Company’s ability to complete its planned exploration programs; the absence of adverse conditions at the DeLamar Project; no unforeseen operational delays; no material delays in obtaining necessary permits; the price of gold remaining at levels that render the DeLamar Project economic; the Company’s ability to continue raising necessary capital to finance operations; and the ability to realize on the mineral resource estimates. Forward-looking statements necessarily involve known and unknown risks and uncertainties, which may cause actual performance and financial results in future periods to differ materially from any projections of future performance or result expressed or implied by such forward-looking statements. These risks and uncertainties include, but are not limited to: general business, economic and competitive uncertainties; the actual results of current and future exploration activities; conclusions of economic evaluations; meeting various expected cost estimates; changes in project parameters and/or economic assessments as plans continue to be refined; future prices of metals; possible variations of mineral grade or recovery rates; the risk that actual costs may exceed estimated costs; geological, mining and exploration technical problems; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing; the speculative nature of mineral exploration and development (including the risks of obtaining necessary licenses, permits and approvals from government authorities); title to properties; the impact of COVID-19 on the timing of exploration and development work and management’s ability to anticipate and manage the foregoing factors and risks. Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in the forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. Readers are advised to study and consider risk factors disclosed in the Company’s annual information form dated April 15, 2020 for the fiscal year ended December 31, 2019.

E. Max Baker, P.Geo, of Reno, Nevada, is a Qualified Person within the meaning of National Instrument 43-101 - *Standards of Disclosure for Mineral Projects*. Tim Arnold, P.Eng of Reno Nevada, is Qualified Persons within the meaning of NI 43-101 - Standards of Disclosure for Mineral Projects. Mr. Baker and Mr. Arnold have reviewed and verified that the scientific and technical information contained herein.

There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. The Company undertakes no obligation to update forward-looking statements if circumstances or management’s estimates or opinions should change except as required by applicable securities laws. The forward-looking statements contained herein is presented for the purposes of assisting investors in understanding the Company’s plan, objectives and goals and may not be appropriate for other purposes. Forward-looking statements are not guarantees of future performance and the reader is cautioned not to place undue reliance on forward-looking statements. This presentation also contains or references certain market, industry and peer group data which is based upon information from independent industry publications, market research, analyst reports and surveys and other publicly available sources. Although the Company believe these sources to be generally reliable, such information is subject to interpretation and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other inherent limitations and uncertainties. The Company has not independently verified any of the data from third party sources referred to in this presentation and accordingly, the accuracy and completeness of such data is not guaranteed.

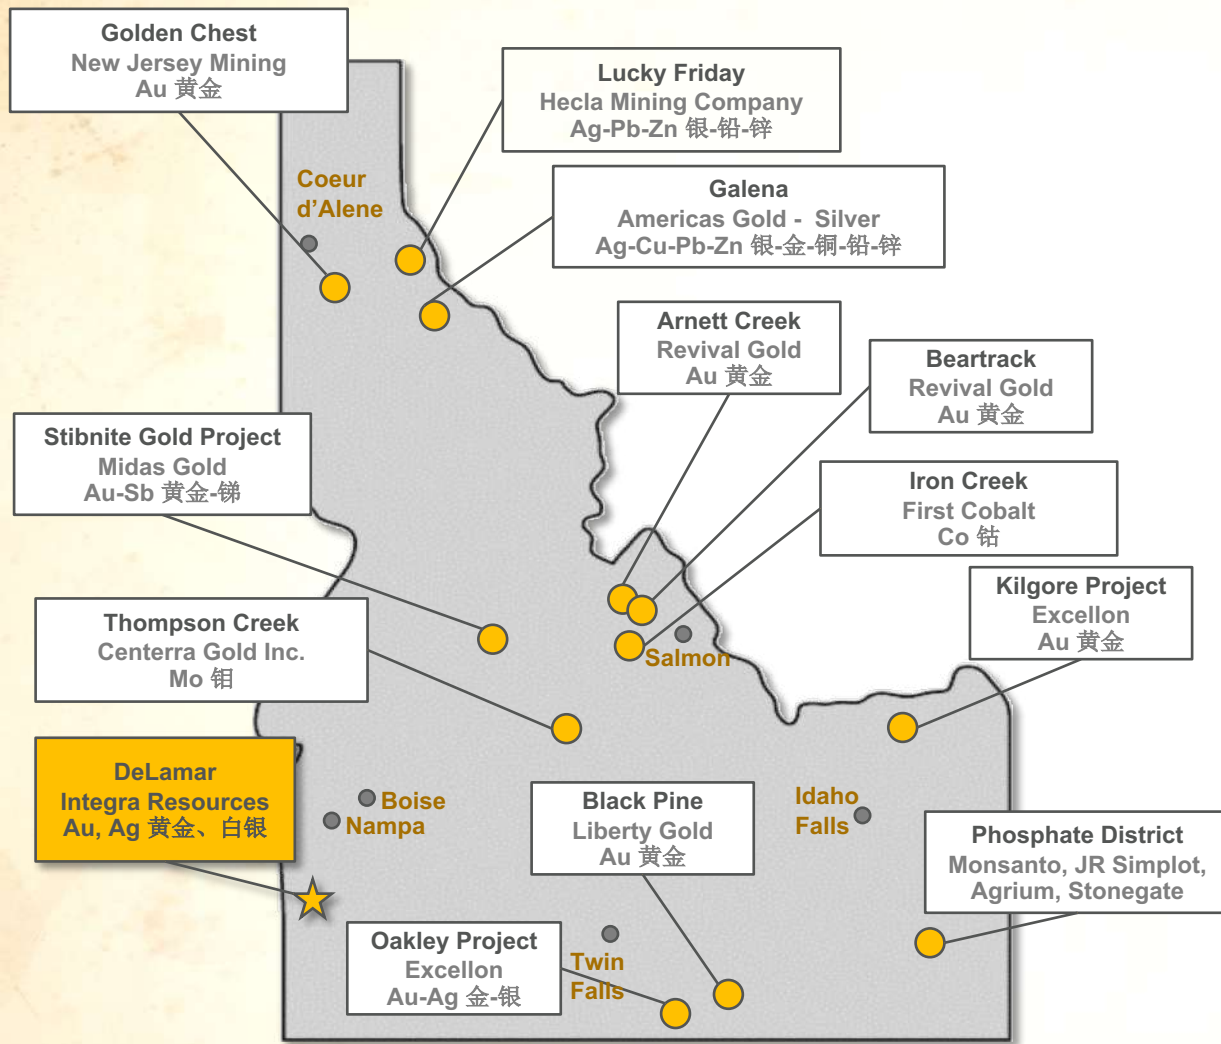

Cautionary Note to U.S. Investors Concerning Estimates of Measured, Indicated and Inferred Resources

The terms “mineral resource”, “measured mineral resource”, “indicated mineral resource”, “inferred mineral resource” used herein are Canadian mining terms used in accordance with National Instrument 43-101 - Standards of Disclosure for Mineral Projects (“NI 43-101”) under the guidelines set out in the Canadian Institute of Mining and Metallurgy and Petroleum (the “CIM”) Standards on Mineral Resources and Mineral Reserves, adopted by the CIM Council, as may be amended from time to time (the “CIM Definition Standards”). Inferred mineral resources have a great amount of uncertainty as to their existence, and as to their economic and legal feasibility. It cannot be assumed that all or any part of an inferred mineral resource will ever be upgraded to a higher category. These definitions differ from the definitions in the United States Securities and Exchange Commission (the “SEC”) Industry Guide 7 (“Industry Guide 7”). **United States investors are cautioned not to assume that all or any part of measured or indicated mineral resources will ever be converted into mineral reserves. United States investors are also cautioned not to assume that all or any part of an inferred mineral resource exists, or is economically or legally mineable.**

Under Industry Guide 7, a mineral reserve is defined as a part of a mineral deposit which could be economically and legally extracted or produced at the time the mineral reserve determination is made. While the terms “mineral resource”, “measured mineral resource”, “indicated mineral resource”, and “inferred mineral resource” are recognized and required by Canadian regulations, they are not defined terms under Industry Guide 7 and historically they have not been permitted to be used in reports and registration statements filed with the SEC. As such, information contained herein concerning descriptions of mineralization and resources under Canadian standards may not be comparable to similar information made public under Industry Guide 7 by U.S. companies in SEC filings.

Integra Resources: The Right Gold Story for any Portfolio

Integra Resources: 一家适合任何投资组合的黄金公司

Strong Balance Sheet: Financed through Pre-Feasibility Study in Q4 2021

强大的资产负债表: 2021年第四季度预可行性研究资金已到位

Tier 1 Jurisdiction: Idaho ranked 8th in the World by Fraser Institute

一级矿业辖区: 菲沙研究所全球矿业辖区排名中爱达荷州排在第八名

Scarcity of Assets: Positioned to take advantage of pending M&A cycle

资产的稀缺性: 处在利用即将到来的并购周期的有利位置

Large Resource Estimate: 3.9 M oz Gold-Silver equivalent in Measured and Indicated ¹

估测资源量大: 测定和指示资源量为390万盎司金-银当量

Right People: Management with a strong record of creating value for shareholders

合适的人: 管理层拥有为股东创造价值的连续的成功履历

Standout Leadership with a Track Record: Integra 1.0 (Gold)

拥有成功履历的杰出领导层: Integra 1.0 (黄金)

52	Number of gold development projects acquired from 2012 to current day / 2012年至今收购的黄金开发项目数量
16	Number of acquired assets successfully put into or are nearing production 收购的资产成功投产或者接近投产的数量
C\$593 M 5.93亿加元	Integra Gold equity value on acquisition / Integra Gold收购时的股权价值
52%	Premium to spot share price offered by Eldorado Gold in 2017 / 2017年Eldorado Gold给出的现货股价的溢价
20	Number of months from close of acquisition to declaration of commercial production 从收购结束到宣布商业生产的月份数

“A major milestone was achieved this quarter with commercial production at Lamaque. We declared commercial production on March 31, in line with our guidance. Lamaque is a fantastic asset where we see a lot of long-term potential. With over 37,000 metres of exploration drilling planned for this year, and excess capacity at the Sigma Mill, we are well positioned to continue creating value at Lamaque.” —Eldorado Gold Commentary on Lamaque

- “本季度随着Lamaque进入商业生产我们取得了一个重要的里程碑。3月31日宣布商业生产与我们的预期一致。Lamaque是一项不可思议的资产，我们看到了很大的长期潜力。今年计划进行超过37,000米的勘探钻探，加上Sigma磨矿厂的过剩产能，我们已做好准备继续在Lamaque创造价值。” —Eldorado Gold对Lamaque的评价

Idaho is ranked by the Fraser Institute as 8th in the World for mining activity.

菲沙研究所的全球采矿活动排名中爱达荷州排在第八位

The politicians and people of Idaho bring strong support and experienced labor to mining. 爱达荷州的政治家和人民为采矿业带来了强有力的支持和经验丰富的劳动力。

Butch Otter, former 3-term Idaho State Governor, sits on the Integra Board, his only Precious Metals directorship. 曾担任过三届爱达荷州州长的Butch Otter现在是Integra董事会成员，这是他唯一担任董事职位的贵金属公司。

Wasamac acquired by Yamana Gold on November 2, 2020

Wasamac于2020年11月2日被Yamana Gold收购。

DeLamar	Valentine Lake	Back River	Wasamac	Spanish Mountain
Integra Resources	Marathon Gold	Sabina Gold-Silver	Monarch Gold	Spanish Mountain

The Silver City Mining District – host to DeLamar and Florida Mountain – has been producing gold and silver since the early 1860s.

银城采矿区—DeLamar和Florida Mountain 所在地—自19世纪60年代初开始生产黄金和白银。

Early miners extracted 250k oz of high-grade gold from Florida Mountain until the onset of World War 1.¹

早期矿工在Florida Mountain开采出了25万盎司的高品位黄金，直到第一次世界大战爆发。

1. Please reference the NI 43-101 Technical Report and Preliminary Economic Assessment for the DeLamar and Florida Mountain Gold-Silver Project, Owyhee County, Idaho for more information on Historic Mining at DeLamar and Florida Mountain (Dated October 22, 2019). 关于DeLamar和Florida Mountain更多的历史开采信息请参考2019年10月22日的美国爱达荷州Owyhee县DeLamar和Florida Mountain NI 43-101技术报告和初步经济评估。

The DeLamar Mine was in operation from the 1970s to the 1990s, shutting down in early 2000 when gold hovered at US\$300 per ounce. The previous operators left behind a significant gold/silver resource.¹

DeLamar 矿从上世纪70年代一直运营到上世纪90年代，本世纪初当金价徘徊在每盎司300美元时，矿山被迫关闭。但之前的经营者留下了大量的金/银资源。

Integra acquired the project in 2017 with a plan to grow the resource and demonstrate how DeLamar can once again be an economic driver for Owyhee and Malheur County.

Integra在2017年收购了该项目，计划在提升资源量的同时展示DeLamar如何再次成为Owyhee和Malheur县的经济驱动力。

2020 in Review: Exploration and Value Creation

回顾2020年：勘探和价值创造

Completed 16,000 m of *pure* exploration, including: 完成了1.6千米纯勘探，包括：

- **High-grade mineralization at Florida Mountain and War Eagle / Florida Mountain和War Eagle的高品位矿化结构**
- **Significant mineralization outside the Resource Envelope at Florida Mountain / Florida Mountain资源范围以外显著的成矿作用**

Finished 2020 with a Strong Balance Sheet / 2020年结束时拥有强大的资产负债表

- **Raised US\$23 M in September 2020, securing financing needs through Q4 2021 / 2020年9月融资2300万美元，确保满足2021年第四季度前的融资需求。**

Listed the Company on the NYSE American 公司在美国纽约证券交易所成功上市

- **Providing access for US Retail to invest in the next US gold-silver development project 为美国散户带来了投资美国下一个金银开发项目的渠道**

Signed Memorandum of Understand (MOU) with the Bureau of Land Management (BLM) 与美国土地管理局(BLM)签署了谅解备忘录(MOU)

- **Securing an efficient path-forward for permitting DeLamar and Florida Mountain 确保DeLamar和Florida Mountain的许可证快速颁发**
