Cautionary Note Regarding

Forward-Looking Statements

有关前瞻性声明的警戒性声明

This presentation includes certain “forward-looking information” and “forward-looking statements” (collectively “forward-looking statements”) within the meaning of applicable Canadian and United States securities legislation including the United States Private Securities Litigation Reform Act of 1995. These forward-looking statements are made as of the date of this presentation. Forward-looking statements are frequently, but not always, identified by words such as “expects”, “anticipates”, “believes”, “plans”, “projects”, “intends”, “estimates”, “envisages”, “potential”, “possible”, “strategy”, “goals”, “objectives”, or variations thereof or stating that certain actions, events or results “may”, “could”, “would”, “might” or “will” be taken, occur or be achieved, or the negative of any of these terms and similar expressions.

Forward-looking statements in this presentation relate to future events or future performance and reflect current estimates, predictions, expectations or beliefs regarding future events and include, but are not limited to, statements with respect to: (i) the Company's focus on advancing its assets towards production; (ii) realizing the value of the Company's projects for the Company's shareholders; (iii) future prices of gold, silver, base metals and certain other commodities; and (iv) the timing and amount of estimated future production. All forward-looking statements are based on the Company's or its consultants' current beliefs as well as various assumptions made by them and information currently available to them. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates that, while considered reasonable by the respective parties, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Many factors, both known and unknown, could cause actual results, performance or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements and the parties have made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: reliability of historical data; fluctuations in the spot and forward price of gold, silver, base metals or certain other commodities; fluctuations in the currency markets (such as the Canadian dollar versus the U.S. dollar); changes in national and local government, legislation, taxation, controls, regulations and political or economic developments; risks and hazards associated with the business of mineral exploration, development and mining (including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins and flooding); the presence of laws and regulations that may impose restrictions on mining; employee relations; relationships with and claims by local communities, indigenous populations and other stakeholders; availability and increasing costs associated with mining inputs and labour; the speculative nature of mineral exploration and development; title to properties; and the additional risks described in the Company's disclosure documents filed with the Canadian securities regulatory authorities under the Company's SEDAR profile at www.sedar.com.

Summa Silver cautions that the foregoing list of factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to Summa Silver, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. Summa Silver does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by the Company or on our behalf, except as required by law.

The potential quantity and grade of any exploration target in this presentation is conceptual in nature, there has been insufficient exploration to define a mineral resource and it is uncertain if further exploration will result in the exploration target being delineated as a mineral resource. Mineralization hosted on adjacent and/or nearby and/or geologically similar properties is not necessarily indicative of mineralization hosted on the Company's property. Galen McNamara, P.Geol., the Chief Executive Officer of the Company, and a qualified person pursuant to NI 43-101, has reviewed and approved the scientific and technical information contained in this presentation. Mr. McNamara has verified the data disclosed herein, including sampling and drilling data underlying the technical information contained herein, by reviewing blanks, duplicates and certified reference material that the Company inserted into the sample stream and confirming that they fall within limits as determined by acceptable industry practice.

Summa Silver Overview / 公司概况

Advancing the Hughes Project in Nevada & Mogollon Project in New Mexico / 推进内华达州的Hughes项目区和新墨西哥州的Mogollon项目区

Prolific high-grade past producing silver-gold districts with large-scale **ounce potential** / 多产的高品位银-金历史产区，具有大规模资源的潜力

High-grade results in drilling with multiple zones over 2,000 g/t Ag equivalent / 在钻探活动中见高品位矿段，有多个区域的矿石品位都超过了白银当量2000克/吨

Substantial drilling planned at spacing required for first resource estimates / 计划按照首份资源量评估所需的间距进行大量的钻探工作

United States focused silver and gold development company / 专注于美国的白银和黄金开发公司

Moving to 43-101 resources on two high-grade silver projects / 目标是获得两个高品位白银项目的43-101资源量

Summa Silver Team

Galen McNamara

CEO & DIRECTOR

Co-founder and geologist with over 15 years of discovery and capital markets experience, former Senior Project Manager at NexGen Energy, Co-founder and Chairman of Goldshore Resources and Angold Resources

Christopher Leslie

SENIOR GEOLOGIST

Economic geologist with over 15 years of experience in mineral exploration focused on the discovery and advancement of gold and silver deposits, co-discoverer of the 8.2 million ounce Blackwater Gold Deposit

Michael Konnert

DIRECTOR

Founder, CEO and Director of Vizsla Silver Corp. Co-founder and managing partner of Inventa Capital, 10+ years experience in mining and capital markets

Brian Goss

DIRECTOR

15+ years of extensive mineral exploration and project management experience in the, founder of Rangefront Geological, a leading geological consulting company project generator in the western United States

Chris York

VICE PRESIDENT, EXPLORATION

Economic geologist with over 12 years experience focused on sediment hosted and epithermal narrow vein deposits, former Exploration Manager for Klondex Gold and Silver running all field activities

Giordy Belfiore

INVESTOR RELATIONS & CORP DEVELOPMENT

Capital markets & Finance background with experience working in junior precious metals companies while specializing in investor relations and corporate development.

Thomas O'Neill

DIRECTOR

President of Thomas O'Neill and Associates Inc, a national leader in insurance planning, group employee benefits and retirement planning, widely recognized expert in the life insurance and financial planning industry

Garrett Ainsworth

TECHNICAL ADVISOR

Highly accomplished geologist and mining executive, key role in two world-class uranium discoveries, President, CEO and Director of District Metals Corp

**AgEq is calculated using US\$20/oz Ag, US\$1,800/oz Au, with metallurgical recoveries of Ag - 90% and Au - 95%. AgEq = (Ag grade x Ag recovery) + ((Au grade x Au recovery) x (Au price / Ag price)) / 白银当量是以白银20美元/盎司、黄金1800美元/盎司计算的，冶金回收率为白银90%，黄金95%。
白银当量= (白银品位x白银回收率) + ((黄金品位x黄金回收率) x (金价/银价))。真实厚度估计为钻探长度的70-80%。

Summa Silver Work Program

/ Summa Silver 工作计划

Q1-Q2 2023 / 2023年第一季度 – 第二季度

- Continue drill program at Mogollon with multiple holes planned to drill vein of know high-grade mineralization / 继续在Mogollon项目钻探，计划用多个钻孔钻探已知的高品位矿化结构矿脉
- Evaluate consolidation opportunities at Mogollon / 评估Mogollon的整合机会
- Continue resource-stage metallurgical work / 继续资源量阶段的冶金工作
- Advance studies to support permitting of additional drill targets / 继续研究以支持更多钻探靶区的许可工作

Q3-Q4 2023 / 2023年第三季度 – 第四季度

- Return to Hughes and initiate drill program to test high potential exploration targets / 回到Hughes，启动钻探活动来测试潜力大的勘探靶区
- Continued data compilation and target generation / 继续编纂数据和生成靶区
- Additional drilling at Mogollon of new targets / 在Mogollon的新靶区进行更多钻探
- Assess potential for 43-101 compliant resource in 2023 / 2023年评估获得43-101资源量的潜力

The Opportunity / 机会

Two famous high-grade past producers currently being drilled with excellent results to date / 目前正在钻探两个著名的高品位历史生产矿，截止目前已经获得了良好的结果

Proven management team with track record of multiple discoveries, creating shareholder value / 拥有成功履历的管理团队，获得了多个发现，创造了股东的价值

Large scale ounce potential with significant leverage to silver and gold prices, **substantial drilling planned** and **upcoming resources** / 拥有大规模资源的潜力，能充分享受银价和金价上涨带来的收益，计划进行大规模钻探，即将发布资源量

Excellent access and infrastructure in stable and established mining jurisdictions / 位于成熟、稳定的矿业辖区，道路和基础设施良好
